Heart Attack Plastic Push Knife Ace of Spades

Remember how the self defense experts used to tell you to place your keys between your fingers and punch. Now there is something much better and more effective. Carry the Heart Attack on your key chain and be ready to protect yourself anytime. The Heart Attack keychain knife is small (3.5 inches long) and made of tough plastic. Hold it between you fingers and punch! Similar in nature to a kubaton, but with the additional advantage of having a sharp edge. This little unit can do serious damage and is definitely not a toy. Applied horizontally to the rib area can cause severe trauma. Use for self defense only.

Stun Ring by Streetwise Sale
